

Steel Fixer – Full-Time, Permanent

Location: Sheffield & South Yorkshire Region

Pay Rate: Excellent pay rates are offered dependent upon experience and ability

Hours: 39 hours per week

Contract: Permanent

About Us

S.P. Fields (Contractors) Ltd. is a well-established civil engineering and building contractor, delivering high-quality construction projects across the South Yorkshire region. We are currently seeking an experienced **Steel Fixer** to join our team, working on client sites across Sheffield and the surrounding areas.

Key Responsibilities

As a **Steel Fixer**, you will play a crucial role in the reinforcement of concrete structures by cutting, bending, and fixing steel bars or mesh for various construction projects. Your duties will include:

Steel Fixing & Reinforcement:

- Reading and interpreting technical drawings, site plans, and specifications.
- Cutting, bending, and shaping reinforcement bars or mesh to required sizes.
- Positioning and securing steel bars or mesh using spacers, supports, and ties.
- Ensuring all reinforcement work meets structural and safety standards.

Site Preparation & Installation:

- Assisting in setting out work areas in accordance with project requirements.
- Working with formwork carpenters and concrete workers to prepare for pouring concrete.
- Ensuring steel reinforcements are correctly placed before concrete is poured.

Health, Safety & Site Housekeeping:

- Adhering to all **health & safety** regulations on-site, including the correct use of PPE.
- Ensuring a **clean, safe, and organised** working environment.
- Identifying and reporting potential risks or hazards.

Skills & Requirements

Essential:

- Previous experience in **steel fixing**, construction, or a related field.
- Ability to read and work from **technical drawings** and site plans.
- A valid **CSCS card** (or willingness to obtain one).
- Strong understanding of **health & safety** protocols on-site.
- Experience and certification of working at height, hot works, and abrasive wheel training.

Desirable:

- **Full, clean UK driving licence** (advantageous but not essential).
- Relevant permissions or certifications for operating **steel fixing equipment** and tools.
- Experience working on **reinforced concrete structures** in civil engineering or building projects.

What We Offer

- Competitive hourly rate is offered dependent upon experience and ability.
- Full-time **permanent** role with consistent work.
- Opportunities for **training and development**.
- A supportive and professional team environment.

How to Apply

To apply for this role, please send your **CV and a covering letter** to **careers@spfields.co.uk** (if you don't have a CV currently then please email us details of your experience).
